BLAIRMORE ALBERTA

H. T. Halliwell, editor of the Coleman Journal, last week announced the fact that he had just completed ten years in the newspaper game at Coleman, having taken over the Journal in 1927. Coleman's first paper, The Coleman Miner, was established thirty-one years ago. The old office building has long since disappeared. Since the birth of the Miner, the trail of the newspaper in Coleman experienced many ups and downs, and Mr. Halliwell's tenure has been the longest and most successful in Coleman's newspaper and printing office history.

The Patton Cup, emblematic of the senior hockey championship of western Canada, was presented to the North Battleford Beavers during their stay in Calgary.

Mr. Evan Morgan, who has been quite ill for some weeks, was removed from his home to the local hospital the early part of the week. Latest report says that his condition is improving.

PASS STRING ORCHESTRA HEARD ON BRILLIANT PROGRAM IN LETHBRIDGE

Blairmore String Orchestra, above, under the direction of W. H. Moser, of Hillcrest, was the highlight of the year's activities of the Women's Musical Club, of Lethbridge, when they presented an excellent program of well-contrasted numbers at the Elks' hall on Wednesday before a large audience.

There was no ugly tuning of instruments to mar the splendid opening of their numbers, which started off with good attack, all musicians getting well into the mood of the composition and playing throughout the program with reassuring musical artistry which instilled an enjoyable feeling of confidence in the audience. There was a fine rhythmic precision and splendid balance at all times.

Although the majority of the members of the orchestra are still in their teens, there was a finish to their playing which would compliment more experienced players. It is interesting to note the nationalities represented in the group include Scotch, English, Ukrainian, Bohemian and German. The pianist and bass 'cellist formed a fine musical background into which the other musicians fitted admirably, forming a delightful musical picture of symphonic harmony.

Violin solos were played by Lawrence Fisher, Rudolf D'Amico, George Kerr and Frank Hasek, all displaying good technique, musical appreciation and much feeling. They were accompanied by Miss Madeleine Chardon, with the exception of Mr. D'Amico, whom Miss Urie Johnson accompanied.

Miss Freda Antrobus, Miss Doris Hales and Miss May Powell, pianists, pupils of Miss Madeleine Chardon, each turned in artistic performances having a background of fine technique, playing with feeling and effective musicianship. Mrs. G. Steeves, vocalist, rounded out a well-balanced program with two delightful numbers which were well received.

Mr. Moser, orchestra leader, and Miss Chardon are to be highly complimented for the musicianship and finish displayed by the young artists under their supervision. The program was delightful and the return of this group of musicians to Lethbridge is an event to be anticipated.

Orchestra members include: First violins, F. Hasek, F. Blazenko, R. D'Amico; second violins, L. Fisher, J. Ferguson, P. Gushul, W. Koyler; violas, G. Kerr, I. May, E. Gushul, P. Bakaj; cellos, Mrs. Rose, H. Stobbs; bass, F. Beebe; piano, D. Hales.—Lethbridge Herald.

Rev. J. M. Pritchard, M.A., of Lethbridge, will be the special speaker at the thirty-first anniversary services at St. Paul's United church, Coleman, on Sunday, May the 2nd. On the Monday evening following the Ladies' Aid will serve the usual dinner.

CORONATION DAY COMMITTEES

At a well attended meeting held at the school house last evening, Blairmore citizens went on record to fittingly observe Coronation Day in Blairmore, and the following committees were appointed to carry out the details:

General committee: E. Williams, honorary chairman; Robert Oakley, chairman; William Dutton, secretary; C. J. Tompkins, treasurer. Programme committee: J. E. Gilles, chairman; A. Bosetti, D. McPherson, Rev. A. E. Larke, Rev. M. A. Harrington, Sidney White and Roland Pinkney.

Finance committee: C. J. Tompkins, chairman; S. McDowell, Mrs. S. McKay, Mrs. D. Fraser, D. A. Howe. Sports committee: S. G. Bannan, chairman; W. H. Chappell, D. A. Howe, J. Packer, Ed. Womersley, J. V. McDougall, M. H. Congdon, Geo. Linn, Paris Baratelli, John Chala, D. Campo, Sidney White, Roland Pinkney, R. Racette.

Parade committee: J. Angus McDonald, chairman; Walter Fisher, John Baird, Desmond O'Conley, J. R. Harmer, Mrs. L. L. Morgan, D. McPherson, Sgt. J. A. Cawsey.

Music committee: Ed. Boyle, chairman; J. E. Upton, W. H. Moffat, Albert Morris, Miss M. Chardon, Mrs. S. G. Bannan, Mrs. J. H. Farmer, Mrs. W. Bond, Miss B. Trono.

Publicity committee: Rod. McLeod, chairman; W. J. Bartlett, O. A. Butler, J. V. McDougall, A. Tiberg.

All committees have power to add to their numbers.

MRS. R. P. BORDEN PRESENTS GUIDE BADGES

An interesting ceremony took place at Coleman on Monday evening, when the divisional commissioner, Mrs. R. P. Borden, presented badges to Girl Guides, Brownies and Rangers.

A unique feature was the presentation of "all round cords" to Misses Lorraine Rippon and Cherry Smith, they being the first Guides to receive this distinction in the Crows' Nest Pass.

To win an all round cord, it is necessary to have received seven other badges, besides being a first-class Guide.

Mrs. L. L. Morgan, district commissioner from Blairmore, was present, as well as a number of parents and other officials.

Commissioner John McMillan, chief of the Salvation Army in Canada, has been appointed chief of staff of the organization, second only to General Evangeline Booth.

Charged with vagrancy, a woman giving the name of Mabel Taylor and hailing from Blairmore, was found guilty and fined \$20, and \$4.75 costs. She was intoxicated when picked up by the police.

MRS. F. BARRINGHAM PASSES

Mrs. Barringham, beloved wife of Mr. Frank Barringham, well known taxi man, passed away at her home in Coleman on Saturday evening, after three months illness.

Mrs. Barringham was born at Hanley, Staffordshire, England, on August the 31st, 1868, the daughter of Harriet Wallis and Henry Ridgeway. With her parents she came to Nova Scotia in 1876, the family locating at Springhill. In 1888 she was married to Mr. Henry Nash, and was widowed by the Springhill Collieries explosion in 1891. The only child of the marriage, a son, John Nash, resides in Coleman. In September, 1907, she was married to Mr. Frank Barringham at Springhill. They moved to Alberta in 1910, and took up residence in Coleman in 1915.

Left to mourn are her husband, and sons John Nash and Oliver Barringham. Brothers living are John Ridgeway, of Roxbury, Mass.; Joseph and Edward, of Springhill, and Leonard, of Lethbridge. Sisters, Mrs. J. Houston, California; Mrs. Charles Lees, of Delia, Alberta, and Mrs. Norman Brown, of Springhill.

Funeral took place on Wednesday afternoon and was very largely attended. Members of the Elks' Lodge, of which Mr. Barringham is a past officer, and the Rebekahs, of which the deceased was a devout member of long standing, attended in a body.

The Crows' Nest Funeral Home had charge of funeral arrangements. The remains were laid to rest in the

CENTRAL UNITED CHURCH
Rev. Albert E. Larke, Minister

Services Sunday next:
11 a.m.—Senior Sunday School and Adult Bible Class.

WORLD HAPPENINGS BRIEFLY TOLD

Members of the royal commission inquiring into Canadian penal conditions announced there would be no more public hearings.

Lethbridge will have a new 700-acre airport ready for inauguration of the trans-Canada air mail some time this summer.

In its first four months of operations, 5,441 loans aggregating \$2,091,158 have been made to property owners under the home improvement plan.

C. L. Coggan, railway mail clerk, Moose Jaw, obtained 100 per cent. in a notation examination held by the post office Feb. 26, it was announced in the post office weekly bulletin.

President Roosevelt intimated he intends to appoint Mrs. J. Borden Harriman, New York and Washington society woman, United States minister to Norway.

Winnipeg city council has voted \$1,960 for coronation celebration expenses. Half the amount will be devoted to four pageants representing various sections of the British empire.

Dr. Halbert L. Dunn of the United States census bureau told the conference of state health officers that one-third of all persons killed in automobile accidents are tourists far from home.

Increasing revenues to the railways from the expanding Canadian mining industry would bring constant reduction in annual railway deficits, Hon. Eugene Paquette (Cons.-Lauren) predicted in the senate.

Was Made Welcome

Governor-General Has Warm Friends in United States

When John Buchan was here in 1934 speaking at the opening of the great new library of Columbia University, he was welcomed in his own person and for his varied contributions, in both the written and spoken word, and especially to the English-speaking youth of the world. He has returned in an official capacity with a title which it is difficult for others than Scots to frame or pronounce aright.

The Scots have a word for the most cordial hospitality that can be shown a guest. It is a welcome into the "ben"—that is, into the best room of the house. The President in bidding this distinguished visitor to come "ben the White House" has shown him the most cordial welcome that the people of the United States can offer a visitor engaged in what he has himself called the "noble merchandising of civilization."—New York Times.

Japan Buying Iron

Has Purchased Construction Machinery Used At Boulder Dam

Japan, urgently needing steel for her military and industrial expansion, is buying construction machinery used in building Boulder Dam. The Nippon Co., chartered steamer, took 450 tons of machinery from Los Angeles harbor, bound for Yokohama and the steamer City of Los Angeles started for the Osaka junkyards carrying 6,000 tons of scrap iron.

Giving Dobbin The Air

Harry C. Kirby of Sunbury, Ohio, has patented a pneumatic horse collar which is intended to eliminate sore shoulders. It is inflated through a regular automobile valve. If this invention works out we suppose that riding stations will have to provide stables so that when a horse and wagon customer stops by old Dobbin can have his peck of oats while he is being serviced with air and water.

London is preparing to install streamlined trains in its subways.

Crack Revolver Shot

Canadian Gives Demonstration For United States Army

Sergeant Robert "Bob" Pickrell, of the Canadian National Railways police at Winnipeg, world's champion revolver shot and holder of practically all Canadian revolver and pistol championships, gave the United States army a lesson in marksmanship at Fort Wadsworth.

Using Bud Donahue of the Pathe news reel as a target, Sergeant Pickrell outlined him and his camera with 15 shots while Donahue worked the camera so that theatre audiences all the world over will be able to know what it feels like to be shot at. His colleague, cameraman Larry O'Reilly, also of the Pathe News, worked a second camera to show that the human target practice was genuine.

The performance was witnessed by a squad of soldiers from the Eighteenth Battalion, United States Infantry under the command of Lieutenant McGeehe and when the various exhibitions were completed, Sergeant Pickrell was besieged for advice and autographs.

In addition to outlining the figure of Cameraman Donahue, Sergeant Pickrell also made a number of shots at the regulation revolver targets that are used by the American army. Although an extremely strong and chilly wind was blowing directly off New York's outer harbor, on the shore of which the range is located, Sergeant Pickrell complained that the bull's-eye was really too big and so, from a distance of 40 yards, he made his own bull's-eye by placing five shots around his first shot. He was so accurate that the entire group of shots could be covered with a 50-cent piece.

The United States army is saying this target to use as an example of the degree of accuracy which can be attained by a revolver shot.

Marking Ransom Money

New Discovery That Will Make A Bank Note Shine Under Invisible Rays

A light that reveals fingerprints never before visible, and a method of marking ransom money so a suspected bill will shine like a glow-worm, was revealed.

Both came from the Bell Telephone laboratories and were by-products of scientific research on metals used in telephoning, under direction of Dr. Francis E. Lucas, one of the world's foremost metallurgists.

Dr. Lucas discovered the method, which mineralizes the prints and makes them permanent, in contrast to present silver nitrate and iodine fuming methods which are "fugitive," tending to fade. The prints mineralize in the fumes of Fleming's reagent, a chemical made of three acids, chromic, osmic and glacial acetic, a preparation used by biologists as a fat fixative.

The mineralized prints show as dark lines. Having made them indestructible as metal, Dr. Lucas turned to another department of metallurgy, which uses ultra-violet, or black light, to reveal metallic crystals not otherwise clear.

The surfaces carrying the indestructible prints were soaked with fumes invisible under light, but which, however, when treated with glow fumes, reveal the invisible rays.

This makes the mineralized prints stand out like iron bars in a lighted window.

Canned Potatoes

Underwater potatoes, closely graded to uniform size, are being canned on the Virginia Eastern Shore. When opened, they carry the flavor of fresh young new potatoes, are especially good creamed, in salad, or browned with roast beef. Hotels use them for banquets—every guest's potato is just like his neighbor's.

The humpbacked camel has a spinal column as straight as that of any other animal.

ALL OUT TO WIN —News of the World.

Had To Abandon Idea

Late King George Unable To Launch Fund For Servants

The story of how the finance crisis of 1931 forced King George V. to give up plans for launching a building society for the benefit of his servants, has been told by Sir Ralph Harwood, the late monarch's financial secretary.

Sir Ralph described the projected scheme as "the building society of borrowers' dreams." It was going to charge the borrowers only two per cent. on their mortgages, and it would have been willing to advance the full 100 per cent. of the cost of mortgaged property.

The plan had been evolved by the King after a discussion on the civil list. The King had pointed out that the financial position was so satisfactory that he would like to do something for the permanent benefit of the servants.

"He did not want to give wage increases because the wages were going up and increases might not always be put to useful purposes," Sir Ralph said. "He wanted to do something which would help and encourage them to be thrifty and be of permanent advantage to them—he warmly welcomed the building society scheme."

However, the King asked for a \$250,000 cut in the civil list when the financial crisis came and so the scheme had to be dropped.

MANY-OCCASION FROCK DE- LIGHTS TID WHO ADORES PRETTY CLOTHES

By Anne Adams

All dressed up with oh—so many places to go, is the cunning young girl who wears Pattern 4301! She'll wear it to school (provided it's made of a sturdy tub cotton) and even to a party when stretched into a dainty frock! Mother knows the saucy touches that delight a small girl's heart, and any lot will dote on puffed or flared sleeves, a "classic" Peter Pan collar, dainty ruffles and a skirt that falls gracefully above chubby knees! And all this perfection is easy as can be to cut and stitch, for the clearest of detailed directions are included. For fabric—why not dotted Swiss, percale or dimity for "everyday"—and a crisp taffeta for parties?

Pattern 4301 is available in sizes 2, 4, 6, 8 and 10. Size 6 takes 2 1/2 yards 36 inch fabric and 1 yard lace. Illustrated step-by-step sewing instructions included.

Send twenty cents (20c) in coin or stamps (coin preferred) for this Anne Adams pattern. Write plainly Size, Name, Address and Style Number, and send order to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg.

Difficulties To Overcome

Pioneer Film Producer Gives His Opinion About Television

Television, says Film Producer Jesse Lasky, may be just around the corner, but there's a long road to be travelled before anyone gets to it. The pioneer movie-maker listed three major difficulties.

1—The gregarious instinct that sends people to theatres.

2—The unsuitability of radio stars for filming.

3—The nerve-strain that would be necessitated by heavy concentration on a comparatively small screen.

"Understand, I'm convinced television is coming," the producer said, "but it won't come soon enough for any of us to worry about."

He believed the technical frailties that now beset television will be corrected.

"But I don't believe people will choose to stay home, by themselves, for a television broadcast, rather than go to a theatre to see a movie. To many, the sensation of being in a crowd, with lights and life around, is very important."

"As for talent, we're having trouble finding, in radio, people who are suitable for pictures. Radio and the movies are two totally different fields. Generally their stars are not interchangeable."

Lasky said television in its present form would be too much of a strain on the tired business man at night.

"After all, you can read or walk around or relax while merely listening. But it would require a genuine effort for a man to sit with his eyes glued on a screen hardly bigger than the average window."

Lasky said he believed television might first develop in the field of news-reporting.

"Assuming that the technical aspects can be straightened out, television would occupy an important function by transmitting pictures of news events directly from the scene."

"But all that is still a long, long distance away."

Estimated By James Watt

Inventor Worked Out The Formula For Horse Power

In James Watt's scrapbook, which is now in the Birmingham Reference Library, appears under the date of February, 1782, his detailed computation of horse power, based upon the experiences of Wrigley, his millwright. At that time horses were employed to drive mill machinery, and Watt estimated that the average horse developed 22,000 foot pounds of work per minute. Anxious to give good value to the purchasers of his steam engine, Watt, in using the term "horse power," increased his estimate by 50 per cent. and thus it came about that the 33,000 foot pounds per minute formula was evolved.—Industrial Britain.

Walter Was Insulted

An English lady, just off the boat, was taken by her hostess to the Park Lane for her first American luncheon. Being very much interested in the American way of living, the Englishwoman ordered a typical Yankee luncheon of fried chicken and ice cream. Then, for dessert, she settled on ice cream. "But none of your great gobs, waiter," she admonished. The fellow stiffened with indignation. "Madam," he said, "the Park Lane is noted for its small portions."—New Yorker.

Trying New Method

California orchardists are trying out a new method of "defrosting" their orchards. When the thermometer drops to freezing they turn on giant electric fans with airplane type propellers, which are mounted on 40-foot towers in the centre of their orchards. A push of a button turns on the fan, which literally blows the cold air away, mixing it with the warmer current from above.

SUNDAY SCHOOL LESSON

APRIL 18

THE EFFECTS OF ALCOHOLIC BEVERAGES

Golden text: At the last it biteth like a serpent, and stingeth like an adder. Proverbs 23:32.
Lesson: Genesis 33:13; 19:23-25; Deuteronomy 32:33-33; Proverbs 23:29-32.
Devotional reading: Isaiah 5:11-14.

Explanations And Comments

Destruction Befalls the Wicked Cities of Sodom and Gomorrah. Three weeks later we shall take up the life of Abraham. To-day we have a selection from Genesis which gives the account of Abraham's separation from his nephew Lot, owing to the fact that the land where they were was not fertile enough to support the great flocks and herds that each possessed. Lot, choose the rich, well-watered plain where were the cities of Sodom and Gomorrah, whose citizens were noted for their wickedness. They were "wicked and sinners against Jehovah exceedingly," or, as Moffatt translates our first verse, "the men of Sodom were vicious, they sinned openly against the God of heaven."

Lot was willing to overlook the vices of the people of Sodom for the expected to reap, and he pitched his tent toward Sodom. But no one could live with the people of Sodom without suffering from their corruption. When he knew of the doom of Sodom, he fled with his wife and daughter to the plain far away. Then Jehovah rained sulphur and fire from heaven on Sodom and Gomorrah, sweeping away these towns and all the Jordan basin, with all the inhabitants of the towns and what grew on the ground (Moffatt's translation).

3—Sins Intoxicating Wine, Proverbs 23:31, 32.

So look not on the wine so red, That sparkles in the cup; It glideth down smoothly at the first.

But in the end it bites like any snake.

It stings you like an adder.

Keep away from temptation. This means more than avoiding indications, by the color of it; sometimes wine, they say, looks so well that it even says, "Come and drink me" (Matthew Henry). "Not only the sting of the serpent, but the subtlety of the serpent is in the wine. The deception lies in the fact that the habit of drinking will become a habit of sin. We know that it is enslaving. Every glass of liquor increases the desire for another glass. Take heed of the bait, for fear of the hook."

Habit Soon Grows

Although People Start Amateur Photography in Small Way

What's a minibus? It's a bug which bites you and makes you more member of a vast army of minicameras (miniature or candid camera to you) enthusiasts.

This minibus is the minibus of its subtlety. Minicameras are so small and comfortable in the palm of your hand, so quick to catch a picture when the subject isn't looking—and some may be had for a trifling sum. And they're good too. So, you say you'll buy an inexpensive one, just for the fun of it. Of course, "you'll never get real serious about it."

But when the minibus bites, and the infection spreads through your blood, you realize you should have one of the real, professional cameras, the kind that cost from \$110 up. They have fast lenses, lightning shutters, and, besides, if you're going to make a hobby of photography, you owe it to yourself to do it right.

So you buy the more costly camera. And now the minibus has you for fair. You learn that to take pictures properly, you need an exposure meter. Hence you need an exposure meter. Since it will save you from wasting film you regard this as an economy. Then you "just have to have" a telephoto lens, because mopsy of the best "shots" you'll be taken from a distance, like birds, animals and good-looking blondes. And now you are well infected—and ready to discover that you haven't put a nick in the available assortment of gadgets, what with extra lenses, speed view-finders, and so on.

Are you dismayed? Not at all. You immediately get out pencil and paper and begin to figure how... That's the worst of the minibus—New York Post.

Retirement Age Fixed

Retirement ages for officers of the Royal Canadian Mounted Police have been fixed in amendments to rules and regulations of the force published in the Canada Gazette. Retiring ages of the commissioner will be 62, his deputy 61 and all other officers 60. The fixing of the retirement age is understood to be intended to speed up promotions within the force.

A young mother asked her butcher to weigh the baby.

"With pleasure, madam." Then having examined the scales: "Thirteen and a half pounds, with the bones."

IF I COULD ONLY GET AN UNBROKEN NIGHT'S REST!

Up time and again because of kidney and bladder troubles? Head aches? Nervousness? Sleeplessness? Fatigue and tension? Take GIN PILLS and get your rest—see how much through their merit.

GIN PILLS FOR THE KIDNEYS

Gardening

Grass seed may be compared to good tobacco. The best seed is a mixture or blend of different grasses. A proportion of those more expensive and slower germinating but permanent grasses will be mixed with certain quantity of cheap quick-growing seed. It is the former which form the fine-stemmed, deep green permanent turf which goes on improving with the years. A certain amount of the cheap, quick-growing kinds are needed to shelter and nurse along the others for the first summer, but sowing these alone, not sufficient for a permanent lawn. Hence, a well balanced, high quality mixture is recommended.

Grass makes its growth in cool weather; therefore, early sowing is advisable.

The ground should be allowed to settle after digging or plowing, and then levelled again. If there is time it is advisable to repeat this process several times. The top soil should then be raked fine, and the grass seed sown in a liberal rate, once across and once lengthwise. This double sowing insures an even distribution. For obvious reasons seed is sown on a day when there is no wind. In covering, the gardener is advised to rake once only and then firm the soil with a heavy roller or pounder.

The first actual gardening operations, if the ground is ready and free from surplus moisture, will be to plant those extra early flowers like sweet peas, cosmos, marigolds and other hardy annuals and almost any perennial. This is a highly important task, authorities advise, to get in grass seed. In the vegetable line, early lettuce, spinach, carrots, beets, and even potatoes, will be made.

At first, one is advised to make small sowings and so spread out the harvesting season. Then, if winter storms appear, these early sowings are made, the loss will be trivial. Seed, after all, is the cheapest of the few factors over which the gardener has absolute control. On these counts alone, it is highly important that only the best seed from reliable Canadian sources should be used. For this reason, fertilizer, soil, fertilizer and labor if the foundation—seed—is not right.

A Western Story

Prize-Winning Book By Kathleen Redman Strange Deals With Farm Life

The prize-winning book, with the West for its background, is under the title "A Modern Pioneer," recently won for its author, Kathleen Redman Strange, the thousand dollars offered by George J. McLeod Limited of Toronto and the Dodge Publishing Company of New York in co-operation of the Canadian Authors' Association, is scheduled to appear on the market this month.

Mrs. Strange, is the wife of the internationally known grain expert, Major H. C. Lucas, and is already well-known to the reading public of Canada for her stories and articles which have, from time to time, appeared in our magazines and newspapers. Her book should be looked forward to with special interest, since it describes in an intimate and lively fashion, every-day life on a typical prairie farm. It tells particularly the story of the farm women, in their struggles and triumphs, hopes and disappointments. Mrs. Strange herself straggled for ten years. Her book is a fitting tribute to the splendid courage and endurance of the women of the farms, to whom it is dedicated.

One of the judges, Dr. Pelham Edgar, says of the book, that it is not only admirable as literature, and as a personal record, but that it should prove of practical value for lending settlers, since the conditions depicted, though actually set between the years 1920 and 1930, are much the same to-day and cover both boom and depression periods in prairie life.

It is interesting to note that out of the 174 manuscripts received in the competition, on many subjects and varied localities, that a story of Western Canadian prairie life should have been chosen. It can be said to be the only one of the kind, of the interest taken in the West, in the people and their problems.

Dubbe, Merak, Phecca, Megres, Alioth, Mizar, and Alkaid are the names of the seven stars of the Big Dipper.

FREEDOM OF THE PRESS
(From the Crossfield Chronicle)

Here, there, and everywhere, on all sides, we hear the cry: "Is the Freedom of the Press warranted?" "Can the Press tell the truth?"

What does Freedom of the Press mean? Simply this, that it gives the individual freedom to amass, for himself, all evidences on all sides of the question, and make the decision, for himself, which is best.

Do you wish to read, in your paper, the news as it is assimilated, or just what news is permitted to be published under censorship. If the latter, then muzzle your press, but remember, when you do so, you take freedom from the individual, as well as the press.

Writing for the Glasgow Weekly Herald, Hugh MacDonald says:

"The man who talks about not believing 'everything he sees in the papers' probably considers himself a very modern, wide-awake, emancipated young fellow, but he isn't. He is saying something which his grandfather said before him, and his grandfather before him and his grandfather before him (and almost infinitum) certainly ad nauseam! It was said about the first newspaper, and it will be said about the last.

Furthermore, it was put better in those days. The conscientious objectors to the news sheets of the seventeenth century did not swallow the stuff in great chunks and call those articles with which they disagreed lies and those they agreed with gospel truth. They damned the whole thing—lock, stock and barrel.

Well, in any case, is the charge true? For any sake let us come to some conclusions about the matter, because if you, honest John Citizen, Little Man, Mr. Taxpayer, or by whatever you like to imagine yourself, believe it to be true and still take a newspaper into your home where your wife and children will read it, you are worse than a restorer of stolen goods—who, after all, converts his ill-gotten gains into something that will supply the daily requirements of his family—you are a poisoner of the worst type—a mind-doper, a man who transmits a disease into his own family circle!

It is because "The Times" dared to rise above its 'class' and speak to the nation that it became long ago the 'key' paper of Britain. (Incidentally one recalls the occasion during 1916 when Lloyd George threatened to resign from the Cabinet because of an 'offensive leader' in 'The Times'.)

"Well, there we are, then, at this conclusion that the really great papers will despise 'scoops' rather than publish unverified information. Further, we have seen that on great occasions they will rise in arms and denounce the guilty, no matter whom they may be. To say that such papers idly lie is nonsense.

"Let no paper-brained theorist, with all his criticisms ready-made, attempt to deny that the press is the bulwark of freedom and democracy. Wherever you have a free press, you will find freedom for the lowliest under-dog. Men like Edward Coleman have died for that freedom; L'Estrange, John Wilkes and scores of other men have gone to prison to make that freedom secure. The greatest enemies the press has had were Cromwell,

MOUNTIE VETERANS
TO BE HONORED

Five members of the Royal Canadian Mounted Police, who have completed twenty or more years of service, will probably be presented with long service medals by Baron Tweedsmuir, Governor-General of Canada, during his visit to Calgary in exhibition week of this year. They are Inspector J. O. Scott, in charge of the Calgary sub-division; Sergt. W. E. Buchanan, headquarters' sergeant at Calgary; Sergt. J. J. Weaver, orderly room sergeant at Calgary; Sergt. J. N. Cawsey, Calgary, and Const. A. Batta, provost in charge of the Calgary guardroom.

Sergt. Weaver joined the force at Prince Albert in 1914, and received his early training at Regina. In 1926 he was placed in charge of the Blairmore detachment, and was in control of the Crows' Nest Pass district for six years.

JACK RUSHTON ALSO HONORED

John M. Rushton, well known Coleman business man, and for years actively associated with the Coleman branch of the St. John Ambulance Society, has just received word from Ottawa that he will be formally admitted to the Order of the Grand Priory of the British Realm of the Venerable Order of the Hospital of St. John of Jerusalem.

The official investiture will be held at the Government House, Ottawa, on Tuesday, April 20th.

This signal honor has been well merited, as Mr. Rushton has rendered excellent service to the cause, and his many friends and co-workers hasten to congratulate him on the distinction which he has brought to Coleman and himself.

ROYAL HONOR FOR
CANON MIDDLETON

Rev. Canon Middleton, principal of St. Paul's school, Blood Reserve, has received a further honor. He was advised of it in the following letter from London:

"His Majesty the King, the Sovereign Head of the Grand Priory of the British Realm of the Venerable Order of St. John of Jerusalem, has been graciously pleased to sanction your admission as an officer of the Order of St. John, as from February 19th, 1937, the date of His Majesty's Sign Manual. An announcement of this honor will in due course appear in the London Gazette."

The canon has left for Ottawa to receive the decoration, the third conferred on him by His Majesty the King in the past two years, a most unique distinction.

The Claresholm Local Press remarks: More than ninety per cent of the newspapers in Alberta take a crack at Premier Aberhart whenever an occasion arises to give voice. This has been looked upon as an affront by the hundred per centers. But there is really nothing strange in this situation. For two years straight the press has been maligned and attacked by the Premier, and now, when time and circumstances are proving that the men who publish the newspapers have been more sane in their conclusions and more correct in their judgment than our inexperienced Premier, it is only natural that the newspaper men miss no opportunity to play Aberhart at his own game. It's just a case of "I told you so," and the newspaper men are just human enough to get a kick out of the present situation.

Mussolini, Hitler and Lenin, and wars which substitute passion for perspective. Even the most Tory journal in this country is essentially Liberal in this one sense, that it demands freedom."

Ever, the British way of Life has been the freedom of thought and liberty of speech, and if we are to continue as a nation of thinkers, we must be permitted to continue in the manner our forefathers have bought so dearly for us.

MINIMUM FINE
SYSTEM DROPPED

Removal of the minimum fine provision from the Vehicles and Highway Traffic Act was decided upon by the Alberta legislature last week, when dealing with a new amending bill in committee of the whole.

The committee also approves of sections of the bill that provide for compulsory dimming of headlights when motorists meet on the highways, lights on cycles on the highways at night, and right of police to make inspections of cars when in operation.

The house favored the proposal to eliminate the \$5 minimum fine and costs for the first offence of those convicted of infractions under the Act as it stood previously.

As a result, a magistrate will have the right to impose a fine of \$1 and costs, for example, or any nominal amount as he might desire. Previously, he could not impose a first offence fine of less than \$5.

Another change which the house approved was an amendment which reduces the distance of 350 feet ahead, over which car lights were supposed to show objects clearly, to 200 feet. This is being done for the purpose of curbing the glare light menace, which has been the subject of complaints by motorists from time to time.

"Any step in the interests of greater safety for motorists has the strongest possible endorsement of our organization," said an official of the Alberta Motor Association, which is keeping a careful eye on legislation of special interest to motorists.

COULDN'T SEE IT

He was an amateur gardener—very. His friends on the 8.10 to town were doing their utmost to give him advice, and now they'd started on leg-pulling.

"Now," said one of his fellow-travellers one morning, "you know the way to get the best out of your sweet peas, don't you? Plant them half an hour before it rains."

The amateur missed the point completely, but as everybody else laughed, he realized it must be a joke.

A few days later, in the train, he suddenly began laughing to himself. "I see the joke about the sweet pea seeds now," he said. "They don't have seeds—they have pods."—Montreal Star.

Would Rather Smoke

A man went to his doctor and requested treatment for his ankle. After a careful examination, the doctor inquired: "How long have you been going about like this?"

"Two weeks."

"Why, man, your ankle is broken! How you managed to get around is a marvel. Why didn't you come to me at first?"

"Well, doctor, every time I say something is wrong with me, my wife declares I'll have to stop smoking."

Mrs. L.: "Well, Teddy, aren't you going out to play this afternoon?"

Teddy: "Nope, I've got to stay in and help daddy with my homework."

Dentist's Daughter: "Well, dear, have you asked father for my hand yet?"

Shy Suitor: "No. Every time I step into his office I lose courage. Today I allowed him to pull another tooth."

Joseph Trudel, a farmer of the Vimy district near Westlock, was found dead at the bottom of a 40-foot well. He was 57 years of age. His wife and children were holidaying in Edmonton at the time.

The New Italia hotel at Cranbrook is now open for business on the site of the old building which was destroyed by fire last year. Felix Provenzano is the owner and proprietor of the New Italia; which was erected by the Fabro Building & Supply Company Limited, of Kimberley, of which Mr. Alphonse Fabro, formerly of Blairmore, is head.

JOHN HENRY LARSON
PASSES AT BEAVER MINES

Apparently stricken as he worked, John Henry Larson, aged 56 years, of west Beaver Mines, was found dead by neighbors beside the stump-puller on his farm on Tuesday evening. Death was due to heart attack. The remains were taken to Glenwood for burial.

He is survived by his widow and several brothers and sisters in Utah.

FATHER OF MRS. C. CHURCH
PASSES AWAY AT MACLEOD

Samuel McCrea, aged 78, former member of the North West Mounted Police, passed away at Macleod on April the 6th. He had been a resident of Macleod for fifty years.

Daughters left to mourn the loss of a loving father are Mrs. Thomas H. Scott and Mrs. J. Cliff Church, of Pincher Creek, and Mrs. (Dr.) J. A. Reid, of Calgary. There is also a niece, Miss Amy McCrea, who for the past several years has resided with Mr. McCrea.

MRS JAMES LINDSAY PASSES

One of the early pioneers of the Crows' Nest Pass, in the person of Mrs. James Lindsay, passed away at Bellevue early Monday morning.

Mrs. Lindsay was born in Ireland sixty-three years ago, and came to Canada in 1906. Following a short period of residence at Lille and Frank, she took up residence at Bellevue, where she has resided ever since. She is survived by her husband.

Funeral took place on Thursday afternoon. Following service in the United church, the remains were laid to rest in the Bellevue cemetery.

Funeral arrangements were in charge of Mr. Ferguson of the Crows' Nest Funeral Home.

TRY OUR SOCIETY PRINTING

HEART FAILURE CAUSE
OF F. WALLACE'S DEATH

According to his son, Elmer Wallace, of Lethbridge, the death of the late Frank Wallace, 65, at Vancouver, was due to heart failure. He is survived by his widow, residing in Calgary; a son, Francis, in Calgary; Elmer in Lethbridge, and a daughter,

Barbara, at Wells, B.C. Mr. Wallace was well known in this section of Alberta, having for several years been employed as government roads surveyor and engineer.

The road over the Frank Slide and through this district prior to the building of the present highway, was laid out by Mr. Wallace.

News from Alberta's Capital

By C. H. STOUT

Edmonton, April 11.—Round the marbled rotunda of the legislative assembly buildings are hung the battle flags of the north, silken colors of honor and sacrifice, but inside the chamber itself might appropriately be draped for the next few weeks, while the house stands adjourned, the white banner of party truce emblazoned, on approval of many members no doubt, with the black emblem of the "double cross."

Virtually seven weeks has been consumed by Alberta's 63 legislators in reaching a stage in public business where it was agreed that a second meeting would be necessary to clear up the order paper. Premier Aberhart's official prediction last February that the session would last only three weeks when he selected a late starting date, turned out to be a long shot left at the post. The next chapter to begin now is the one which probably will require three weeks at least, with the bitter fraternal fight likely to resume where it left off this week. So far it has been a no-decision bout with both sides going to the dressing room for hope.

A depression harassed country will hear more about the "double cross" during the next few weeks. One week last week A. J. Hooke, special credit member for Red Deer, asked leave to adjourn the house to openly discuss the charge of double crossing involving the premier and two cabinet ministers. The move was a new one on Speaker Peter Dawson, who only donned the black gown about 8 weeks ago, and he begged the house to give a ruling, the government winning by an unofficial count of about 30 to 26, with opposition tying in with insurgents. Aberhart supporters then moved desks vigorously at this first real factional success, but the count was washed off when Mr. Speaker had the attention drawn to rules which permit a motion to adjourn if supported by 15 members. Next Mr. Speaker ruled that the charge of double cross was purely a party matter and therefore "not of urgent public importance." The matter was permitted to drop but not before insurgents spread the allegation that the double cross was a Low-Maynard move sanctioned by Mr. Aberhart himself.

Readers will recall that the incident in question occurred when the premier moved to withdraw the main supply motion and insurgents had agreed that if the budget were held over they would support interim supply of \$6,000,000 in round figures. The Speaker for Medicine Hat, J. Robinson, a strong government "yes man" said "no" when the withdrawal required unanimous consent. Insurgents alleged this was a direct breach of faith following their caucus agreement, then Robinson was faced with the dilemma and the withdrawal motion was declared carried by Mr. Speaker later in the afternoon.

Naturally the premier feels he has been double crossed by the backbenchers in their "yes" vote. His reports of double crossing in the cabinet itself, and insurgents have openly charged some of their "yes" members with double crossing, reports and revealing group secrets to Mr. Aberhart. The old fashioned game of tag and cross has been going on of late yet it seems.

Insurgents during the last week for the most part remained away from party caucuses. The breach between them and the government has widened aggressive and the insurgents for reconciliation. The fight goes back to the country where the home folks may get first hand reports of sessional doings from their members. It is a most interesting political chapter and worth reading.

Social credit made a rather timid entrance to the assembly chamber last week when Premier Dawson was given to bill 90, a measure based on the bulky social credit framework legislation drafted by insurgents during weeks of intensive study and inquiry, in their initial intention of helping Mr. Aberhart make up his mind and institute social credit. The premier promised to submit the bill to the house if insurgents voted three months supply and Hon. Lucien Maynard formally ushered the bill into the chamber on Thursday. It provides for the appointment of a committee of five members to apply social credit in the province and select a permanent commission of from three to five members to administer the act when initiated. Provisions for monthly consumers dividends, distribution of credit, and operation of state credit houses, are incorporated though printed copies of the bill were not available over the week end.

The board named by the government to operate under the act, with authority to travel anywhere in the world for the furtherance of their plans, will consist of C. L. MacLachlan, coronator, chairman; S. A. Berg, Alexander; P. M. Baker, Clover Bar; W. E. Hayes, Stony Plain; and Dr. J. L. McPherson, Verulamville, all social credit members, with the first two at one time on the insurgent "committee of ten," though they later supported the government. Dr. H. K. Brown, Pembina, and H. E. Anusley, Leduc, of the insurgents, refused to take committee posts.

"The committee has power to travel anywhere in the world, I understand," observed G. O'Connor, Liberal, Edmonton. "Will the minister say they may also go elsewhere?" a rally which brought roars of laughter from all sides of the house.

Debt reduction legislation conceived and drafted by the young Lucien Maynard, minister of municipal affairs, straddled the province when introduced last Thursday. It had the approval of government members in caucus but not of insurgents who proposed a tax on securities measure to

implement their social credit bill, and it proposed a fifty per cent. increase in principal on private debts contracted prior to July 1, 1932, with power to repay the remainder in ten years. The statements with interest at regular rates on the amount of the principal. Immediately legal authorities claimed the legislation was probably as unconstitutional as the debt reduction act of 1930 which the supreme court found ultra vires.

Amendments in the debt adjustment act would permit those owing private debts between July 1, 1932, and July 1, 1935 to have their obligations probed by the board, including all persons, whereas only farmers and home owners enjoyed this privilege previously. The debt adjustment bill had a section permitting "necessitous creditors" to apply to the debt adjustment board for a hearing. Other amendments in the debt adjustment act restored the right of appeal from decisions of the board to the supreme court.

Members generally were of the opinion when the house resumed for its second week that it would be necessary to extend the blanket moratorium on all private debts announced on April 23. So unsatisfactory was the government debt reduction proposal that it was expected to be put on the shelf in the meantime.

With nearly 100 bills on the session's order paper the house spent all last week in committee. The livestock and livestock products act was reported, this providing for inspection of all livestock at plants, and licensing for buying and selling livestock with more rigid control over dealers by trucks. New regulations were endorsed for taxation of grazing lease lands, this to be equal in amount to the least charges in crown lands, with the department of lands sole collecting agency and the assessment to be based on value of leases rather than on a flat acreage levy. Many changes were proposed in a consolidation of the dairy farms act to this enable the minister to more closely supervise all creameries.

Insurgents in the afternoon moved to amend the Municipal act amendments would enable municipalities to lay out and construct a municipal "water hole" for the use of livestock, and it also provided for a virtual "poll tax" of \$4 per acre on all land in the municipality and not otherwise taxed. Debt adjustment act changes took away from the cabinet the power to impose moratoriums and stay court proceedings on debt, by order in council, but it was hoped a special bill might be brought in to restore this authority on more definite lines, in view of the fact that the moratorium appeared to be the only means yet found for the government to deal with the private debt reduction problem.

Inquiry under the workmen's compensation act was ordered and a committee of seven members under the chairmanship of attorney general Huggill named, these being Messrs. Dawson, Robinson, B. H. Brown, Duggan and Morrison, report to be presented at the next session of the house. A. E. Maclean, initialist, got a preliminary approval for his bill to permit collective bargaining by trade unions and the right to all unions to organize.

Friday afternoon the assembly by a substantial majority agreed to a resolution of Fred Anderson, Calgary, that the government should examine the possibility of cutting down the number of members in the legislature, reducing the cabinet and providing for the assistance of more expert advisers, all designed to reduce administration cost for the province, though A. V. Boucier, Lac Ste Anne, and others contended only those "postage stamp" constituencies should consider redistribution and that legislation cost was only 46 cents per capita now.

Hardly in keeping with the spirit of the resolution, however, was a proposal from the government in caucus that the \$200 seasonal indemnity cut voted by the house in 1932, be restored, the members to get \$2,000 each instead of \$1,800. A resolution to this effect stood on the order paper nearly all week but was not debated.

When J. J. Bowen, Liberal leader, queried Hon. Dr. Cross respecting the status of the three licensing, marketing and price fixing bills, numbers 35, 36 and 41, which it was understood the caucus had been told would be withdrawn, the minister of trade and industry said the measures "were yet to be considered." Premier Aberhart denied he had told the newspapers the offending bills would be withdrawn. They will stand on the order paper when the session resumes in June, it is anticipated. Proposals to reduce exemptions under the sales tax also stand on the order paper and will not come up again until June it is understood. Meanwhile higher tax review on corporations were authorized, and taxation of railway mileage increased. Feed grain advances were provided for in special legislation up to the amount of \$500,000, and another special vote of \$150,000 was authorized for the campaign against grasshoppers. Otherwise only one quarter of the estimated annual expenditure will be permissible up to July, according to restrictions imposed by interim supply. The budget reposes inconspicuously in treasury vaults until the assembly meets again in the merry month of June. It is orthodox and out as far as the house is concerned.

William J. Breckenridge, well known old timer of Pincher Creek, passed away on Friday last, aged 69.

HILLCREST HAPPENINGS

The Ladies' Aid tea and sale of cooking held, in honor of the United church on Saturday, was a great success.

Cliff Richards left for his home in Mountain Park last week. He is stopping off at Calgary to attend the hockey games.

Margaret Adam returned to the convent in Pincher Creek last week after spending a few weeks holidays with her parents.

Mr. and Mrs. D. J. Jones are rejoicing over the birth of a baby son.

The following Hillcrest people were in Calgary on Saturday to attend the hockey game: Dr. and Mrs. G. B. Rose, Rinaldi D'Amico, H. O. Westrup, Cyril and Bill Richards, Mr. G. Thornton and Kenneth, and H. Stobbs.

The whist drive held last Friday in the Catholic hall under the auspices of the Hillcrest Social Credit group, was a great success. The prizes went to: Ladies' first, Mrs. R. Turner; second, Mrs. J. Seaman and third, Mrs. R. Brown. To the gentlemen: first, Mr. J. Semanick; second, Mr. P. Rico, and third, L. Thomas. The draw for the pillow cases was won by J. Tapey, of Riverbottom.

Mrs. J. Foss, of Calgary, was a visitor this week at the home of Mr. and Mrs. W. Fisher.

Mr. and Mrs. G. E. Cruickshank are visitors to Calgary this week.

Harold Clark returned to his home in Vancouver on Sunday.

BELLEVUE HAPPENINGS

Norman Stewart, of Infaill, is in town renewing old acquaintances.

Miss Stella McDonald and Mr. Alfred Price left on Sunday for Calgary, where they will continue their studies at Calgary Normal school.

Mr. and Mrs. P. Cherbo returned on Saturday from a honeymoon spent at several B.C. points.

Mr. and Mrs. A. Goodwin and daughter, accompanied by Messrs. J. Dowson, A. Rhodes and M. Parker, were among those who went to Calgary to see the Allan cup finals on Saturday.

The townspeople were shocked on Monday afternoon to hear of the passing of Mrs. Mary Lindsay, beloved wife of Mr. J. Lindsay. The end came peacefully at about 1.30 p.m. Monday. Mrs. Lindsay was taken sick in February and since that time has been confined to her home constantly. Mrs. Lindsay was a well known and highly respected citizen, having lived here for about thirty years. The sympathy of the community is extended to Mr. Lindsay in his sad loss.

KEEPS WEALTH MOVING

The record of the oil business is written less in its annual statements than it is in the lives of thousands of men and women who have benefited from its operation.

The wealth it produces has gone to the owners of the soil, to the men who have worked it, to thousands who have labored in refineries, to drivers of trucks and operators of service stations in towns and cities, to pioneers of progress in laboratories, to thousands of investors (more of these of small means than large), to churches, colleges, schools, and all manner of philanthropic institutions, to owners of real estate, to suppliers of products, and to governments.

When governments take onerous tolls by way of tax levies, it is only common sense that they may hit, and often they do, the vast numbers of the people whom the industry supports.

The activities of this highly organized business keeps wealth moving in all directions today. The oil industry is inseparably woven into the industrial and business fabric of the nation.

COWLEY HAPPENINGS

Mr. and Mrs. Earl Matthews and daughter Elaine were week end guests with relatives at Claresholm.

Mr. Schumaker and daughter Dora, of Claresholm, were Cowley visitors the early part of the week.

Five families of Doukhobors, from Cowley and Lundbreck, left the early part of the week for British Columbia. They intend settling around the west end of the Kootenay lakes district, where they will make their homes in future.

Mr. Jack Stainby is spending several days in Hillcrest, where she is engaged in dressmaking.

Mrs. Robert Littleton spent a few days with Mr. and Mrs. Scottie Wells and family in Bellevue this week.

On Thursday night last, Mr. and Mrs. Horning gave a party in the Cowley hotel, when around forty guests were present. Entertainment took the form of cards, five hundred being played, at which the prizes were won by: ladies' first and second, Mrs. Soles Tustian and Mrs. Hector Lemire, while the gent's prizes were won by Mr. Crowe and A. J. Snyder. A very appetizing luncheon was served by the hostess.

Truth in Advertising

ALABASTINE

THE NATIONAL WALL COATING

BEAUTIFYING THE SANCTUARY

St. Andrew's-Wesley church, Vancouver, has been enriched by the addition of a magnificent stained-glass window, installed in the chancel by Rt. Hon. R. B. Bennett and members of his family in memory of his sister, Evelyn Bennett Coates.

The ceremony of unveiling was conducted by Rev. Dr. Willard Brewin on March the 14th. He was assisted by Rev. Dr. J. S. Henderson and Colonel Nelson Spencer.

At the bottom of the window are

the words, "To the Glory of God and in Loving Memory of Evelyn Bennett Coates, beloved wife of Dr. H. W. Coates, M.D.C.M., this window is dedicated by her brothers and sister."

"It says here," said one spinster, reading from a newspaper, "that a woman in Manchester has just cremated her third husband."

"Oh, isn't that just the way of things!" cried the other. "Some of us can't get one, yet other women have husbands to burn."

The Community Newspaper

Few people appreciate in anything like full measure the tremendous influence for good exerted by the country weekly newspapers of the western provinces in the communities they serve and the quality of the service rendered by the proprietors and editors of these weekly symposiums of world, national and local current events.

Whether realized or not, however, the fact remains and can be irrefutably established that the well-conducted and discriminatingly edited country weekly—and that means the great majority of them—fulfills an extremely important function in the town and rural district in which it circulates. Nothing else that the subscriber purchases can be bought to yield such value for such a small monetary consideration.

And not only in quantity of material does the subscriber receive great value for an almost infinitesimal outlay but the quality of the merchandise offered to the purchaser of the paper is an unparalleled tribute to the discernment, ability and integrity of the proprietor who shapes its course and determines its policies.

An analysis of the contents of the average issue of the mill-run of country weeklies in the west demonstrates that considerable discernment is exercised in the selection of the news presented to their readers, that a high moral plane dictates the selection that is made and that service to the community of a high order is invariably maintained throughout their columns whether devoted to world events or to small local occurrences.

Partly because of this all-pervading tone permeating from the first paragraph to the last and partly because in many homes the local weekly is the sole printed purveyor of current topics no literature is more consistently and carefully read or with such close scrutiny, including the advertisements, than the country weekly newspaper.

Another factor which commends the country weekly to its readers and subscribers is the eminently sane outlook of its proprietor and editor in approaching the problems of the day—whether they be political, social, religious or economic. Their utterances invariably reflect a breadth of vision and spirit of tolerance so much needed in a world gone mad and at a time when too many turn aside to follow false gods or pursue spurious theories and "isms".

Then, too, much of the extraordinary influence exerted by the country weekly upon its readers should be attributed to the liberal space devoted to plans which have as their objective some phase of community betterment or improvement of the town and district. In this respect owners and editors give much of their time and energy to worthy causes for which there is no recompense other than the satisfaction which comes from having assisted in the promotion of a beneficial project.

Alongside the more imposing and voluminous metropolitan daily which is "sufficient unto the day" for its clientele, the country weekly paper may appear comparatively insignificant, but the latter is picked up, read and re-read and its entire contents of news, editorial content and advertising is digested and re-digested for a week until the succeeding issue steps into the breach. And it is largely because of this assiduous and intensive study and reflection which the weekly newspaper inspires that it wields such an important influence on its readers.

The country weekly also can be counted upon for loyalty to its readers, subscribers and advertisers, for justifiable pride in the town and district which it serves and in so doing is worthy of support, in season and out of season, from the local merchants, the local board of trade, the local sports organizations, the local churches and the people of the district, for the local paper is a co-operative enterprise, even though privately owned.

Without the services of a sound, sane country newspaper, any community is bound to suffer and many worthy local ventures would languish and wilt of inanition and without the whole-hearted support of the many individuals which make up the community the local paper would lapse into a decline and eventually inherit a lamentable grave.

The grueling test of a depression of unprecedented length and exorbitant severity—and the casualties have been surprisingly few—speaks volumes for the high regard in which they are held, perhaps often unconsciously, by the people they have served, and are serving so well and so tenaciously, despite great handicaps.

Public Too Cautious

People Barred From Parts Of Windsor Great Park

The decision, reluctantly arrived at, to close to the public parts of Windsor Great Park near the Royal Lodge to secure privacy for the King and Queen is a lesson to people who have been indiscreet in their curiosity, comments a writer in the London Daily Sketch. The ruling may be relaxed later if conditions improve. The King and Queen like to regard Royal Lodge and the Great Park as a part of their private lives.

For years there has been a standing reward of £1,000 for one pound of manufactured bomb-honey.

A bud has the remarkable power to reproduce every part of a tree; stem, foliage, branches and fruit.

HOW'S YOUR STOMACH?

YOU lose vital nerve force if you allow your stomach to distress you. Acid stomach, indigestion, gas or biliousness and "constipation" cause the blood to be poisoned and will eventually destroy health and vitality. I suffered with my stomach for years. I was told to eat very little and that would cause distress. I grew weaker and weaker. I took Dr. Pierce's Golden Medical Discovery and was soon able to eat normally. I gained in weight and strength and could resume my work. The "Discovery" made a well person of me. Buy now!

Not New To Eskimos

Natives Of Remote Island Have Always Had Social Security

Social security is centuries old to the primitive Eskimos of remote Munivak Island.

They provide for their aged and needy through "gift festivals" a needly German scientist, Dr. Hans Himmelscher, disclosed after a five-months' study of the natives. All festivals are held mainly to exchange gifts, everyone making what he can to give away, even kayaks (skin boats) and 100-yard long seal hats, thus showing his value to the community.

Gifts are piled up and then distributed by the most respected man, to the old and poor first. This provides an economic minimum for all members of the community, since many suffer undeservedly, being badly incapable or unfortunate.

Bird nests are important export articles of the Malaysian islands. More than 3,500,000 nests of the edible swift have been imported to China in a year, for conversion into birds' nest soup.

In the Samoan Islands, whole villages often pack up and go on excursion visits to other islands as far as 60 miles away. The trips often last six months.

Apparatus has been developed by New York state scientists for taking full-length X-ray pictures of men and women in color.

Preservation Of Liberty

American-British Friendship Best Guarantee Of World Peace

Under the heading "hang together or hang alone," an editorial in the New York Daily News endorsed that part of Lord Tweedsmuir's recent speech at the United States naval academy in which the governor-general of Canada said:

"The American and British navies are united in the same purpose—the preservation of liberty and peace." The News foresaw difficulties if an attempt were made to put a formal naval and military alliance between Britain and the United States through parliament or congress.

"We would hardly like to sew ourselves up in an agreement to help Britain fight Italy or Russia," it argued. "Britain wouldn't like to be tied up to us for some conceivable South American or Mexican war."

"But for the two of us to keep our informal friendship unflinchingly warm is only common sense... as long as we maintain the world's two most powerful navies, any nation will think a long time before picking a fight with either Britain or ourselves."

The editorial added that American-British friendship is not only natural, "but is also, as Lord Tweedsmuir says, the best guarantee of both nations' safety and the best insurance against another world war."

Mahatma Gandhi

Reported To Be Leading The Life Of A Typical Villager

Mahatma Gandhi is now leading the life of a typical villager.

He has taken permanent residence in a hut on the outskirts of Sheogan village, seven miles from Wardha (Central Provinces). His wife and secretary live at Wardha, hence the latter goes daily to his master. The road to Sheogan lies partly through fields which become a morass during the monsoon, making communication difficult.

Nearly a hundred huts, some thatched, are scattered about the village. Gandhi's home, which is a tiled hut of mud, has an airy hall in the centre which serves as his study. A kitchen, storeroom and bath complete the home. At the side is a small stable for goats.

Gandhi has no program for the future these days aside from his daily schedule. The villagers attend his open-air prayers at dawn and dusk.

Received Lloyd's Gold Medal

Admiral Evans Holds Rare Award For Gallantry At Sea

Admiral Sir E. R. G. R. James, who delivered his address as Lord Rector of Aberdeen University the other day, is the only man to have received one of Lloyd's gold medals for special gallantry at sea. He won it on the occasion of the Hong Kong disaster, when he dived into a heavy sea and swam with a life-line to the sinking vessel. Not content with that, he returned to bring an unconscious comrade to the small motor launch, which had approached as near as possible. After that he dived in a third time to free the propeller from a piece of wire with which it had become entangled, reports the News of the World. He earned his famous title, "Evans of the Break," when in charge of one of two destroyers which defeated six German destroyers off Dover in 1917.

Should Be Discouraged

British Royalty Thinks Official Presents Imposed Needless Burden

King George Intimated to foreign governments through official channels that he did not wish gifts on his coronation.

This follows the precedent set by his father, George V., who said shortly before the last coronation that outlays for lavish official presents were needless burdens on others and should be discouraged. Since then British royalty declined all gifts except those from personal friends.

Despite this precedent the British royal family and government still send magnificent gifts to other foreign rulers on state occasions.

Plants so shaded that they receive one one-hundredth of normal daylight grow little better than plants in total darkness.

HOW TO OVERCOME ITCHING PILES

If you are annoyed with itching piles or rectal soreness, do not neglect the same or run the risk of an operation. Any itching, soreness or painful passage of stool, is nature's warning and proper treatment should be secured at once. For this purpose get from any druggist, a package of Hemoroid and use as directed. This formula, which is used internally, quickly relieves the itching and soreness and aids in healing the sore, tender spots. Hemoroid is a physician's prescription and is highly recommended. It is easy to use and it needs the help of only for anyone to take an operation when a simple remedy which is as pleasant to use may be had at such a reasonable cost.

THE SHOW GOES ON!

OH, MOTHER... I'VE BEEN CHOSEN FOR THE LEADING PART IN OUR CLASS PLAY!

WELL, YOU CAN'T BE IN THE PLAY... AND THAT'S THAT!

WHAT ARE THEY TRYING TO DO? GIVE HER AN EDUCATION OR MAKE A CHORUS GIRL OUT OF HER?

WHY CAN'T EDITH BE IN THE PLAY? I THINK IT WOULD BE GOOD FOR HER.

IT'S TOO MUCH TROUBLE TO MAKE HER COSTUMES—WHEN I'M HAVING SUCH HEADACHES AND INDIGESTION.

WHAT DOES HE CARE HOW LONG AS THE KID HAS A GOOD TIME?

YOU'VE BEEN FEELING BADLY FOR MONTHS. DEAR! LET'S GO AND SEE THE DOCTOR! COME ON—LET'S GO RIGHT NOW!

WELL... I SUPPOSE IF I DON'T GO, I'LL NEVER HEAR THE END OF IT!

YOU'RE MAKING A BIG MISTAKE! I'LL BULLY YOU!

MRS. BARCLAY, I BELIEVE THAT CAFFEINE-NERVES IS CAUSING YOUR TROUBLE.... I SUGGEST YOU GIVE UP TEA AND COFFEE FOR 30 DAYS AND DRINK POSTUM INSTEAD.

CURSES! IF SHE'S SWITCHING TO POSTUM, I'LL HAVE TO SCRAM!

"IT SEEMS strange that tea and coffee could hurt me! I thought they were had only for children." "Oh, no! Many adults, too, find that the caffeine in tea and coffee can upset nerves, cause indigestion or prevent sound sleep!"

If you suspect that tea and coffee disagree with you... try Postum for 30 days. Postum contains no caffeine. It is simply whole wheat and bran, roasted and slightly sweetened. It's easy to make... and costs less than half a cent a cup. It's delicious, too... and may prove a real help.

Try a can of Instant Postum. If at the end of 30 days you do not feel better, return the can and we will refund the price of the Instant Postum, plus the postage. Consumer Service Dept., General Foods Ltd., Cobourg, Ont.

SELECTED RECIPES

CRISP COOKIES

Temperature: 400 degrees F.
Time: 15 minutes.
2 squares unsweetened chocolate
1/2 cup shortening
1/2 cup sugar
1/2 cup "Crown Brand" Corn Syrup
2 eggs, unbeaten
1/2 cup flour
1/2 cup Benson's Corn Starch
1/2 teaspoon vanilla
1/2 cup finely chopped nuts
Method: Melt the chocolate in the top of a double boiler. Remove from heat and add the shortening, sugar, "Crown Brand" Corn Syrup, eggs, flour, Benson's Corn Starch and vanilla, beating the whole mixture thoroughly being sure the eggs are added one at a time. Spread the mixture on baking sheets which have been oiled with Mazola. Sprinkle with nuts and bake in a hot oven. Cut while warm. These cookies are very crisp and easily made.

Use Of Serums

Taken From Persons Recovering From Infantile Paralysis Found

Effect
The use of serum from persons recovering from infantile paralysis to treat other victims proved effective in checking an epidemic in Manitoba, Dr. E. W. Jackson, deputy minister of public health for Manitoba, told the conference of state and provincial health officers.

"Altogether 539 cases were reported, of which 33 died and of the remainder only 99 had paralysis after the disease subsided. Six or seven only will be totally disabled," he said.

The Final Stop

You need 40 feet to stop your car at 20 miles an hour; 73 feet at 30 miles and 115 feet at 40 miles. At 50 miles you will need 166 feet—and if you keep on climbing in speed eventually you will need only "five or six feet"—depending upon your height. Moreover, then, you will be stopped for good.

"Is ink so very expensive, father?" "No, dear, what makes you think so?"

"Well, mother seems quite disturbed because I spilled some on the hall carpet."

If your community used its own ball sun time, a traveller going east or west would need to change his watch one minute every 13 miles.

A lightning flash lasts approximately one-millionth part of a second.

Russia expects to increase its oil production 18 per cent. this year.

A Seedless Pear

Fruit On Ohio Farm Is Also Practically Coreless

A new seedling pear, seedless and practically coreless, has been found growing on a Columbiana County, Ohio, farm. It resembles the Bartlett and compares favorably with that standard variety, ripening about ten days earlier. The tree promises to be vigorous and productive, and, while it has not yet been widely tested, it seems to have promise, especially for canning. For several years the fruits have averaged about 90 per cent. seedless.

Bicycles caused practically the same number of fatal accidents as privately owned automobiles in Great Britain in the last year.

To Mend Broken China

Mixture Of Isinglass And Vinegar Makes Excellent Fixative

An excellent china fixative can be made with isinglass which must be broken up into small pieces and placed in a small cup or egg cup, with a few drops of vinegar. The mixture should be of a syrupy consistency. Use a small camel-hair brush and paint the mixture on the previously cleaned edges, then press them tightly together. If possible, a thin rubber band will often be useful in keeping an article in position until the mixture has hardened sufficiently to hold.

The International Date Line, where each new day begins, has never been drawn by legal agreement.

Firestone

Extra Values at NO EXTRA COST

No matter how much you intend paying for tires drive in to your local Firestone Dealer and let him show you he can give you most value for your money. He has a complete stock of Firestone High Speed, Oldfield, Sentinel and Ground Grip tires that will give you the longest mileage at the lowest cost. Drive in and let him serve you.

Firestone

POLICE PREPARE FOR TROUBLE IN OSHAWA STRIKE

Toronto.—Police ranks, were augmented here as authorities took precautions against any disturbance at Oshawa where 3,700 General Motors of Canada employees are on strike.

About 300 constables from Ontario Provincial Police and the Royal Canadian Mounted Police, stationed in the Toronto area, were ready for any trouble. The combined force is under command of Staff Inspector E. T. Doyle of Queen's park headquarters.

Sixty Royal Canadian Mounted men came here from Ottawa under command of Superintendent Fred Fletcher and Inspector E. Carroll. Superintendent Fletcher said he expected 30 more men.

Premier Mitchell Hepburn said every effort would be made to stop invasion by "agitators" of Ontario automobile, mining and timber industries.

Nothing would be left undone to prevent domination by John L. Lewis' Committee for Industrial Organization, he said.

"We know that these agitators are up to," the premier continued. "We are advised only a few hours ago that they are working their way into the lumber camps, the pulp mills and our mines. Well, that has got to stop and we are going to stop it. If necessary we'll raise an army to do so."

Premier Mitchell Hepburn lined his government beside General Motors of Canada to fight the "domination of professional labor profiteers" from the United States who, he said, organized the Oshawa strike of automobile workers.

"A showdown" was imminent, declared the premier, asserting "the entire resources of this province will be utilized, if necessary, to prevent anything in this country resembling that which is taking place at the present time across the line, due to failure on the part of constituted authorities to take adequate action."

While the premier merely said "sufficient police to maintain law and order" would be available, it was learned 200 Royal Canadian Mounted Police had been placed at the disposal of the Ontario government. It was believed the Mounties would be stationed in Toronto, 35 miles from the strike area.

In addition about 65 officers of the Ontario Provincial Police were mobilized in Toronto.

The premier said in a statement, "The government expects very much that the employees of General Motors have seen fit to follow the suggestions of the C.I.O. paid propagandists from the United States and to desert their posts at a time when both the employees and the industry itself were in a position to enjoy a prosperity not known since 1929."

"Some time ago, when the government became aware of the activities of these agitators from the United States, a complete survey was made of working conditions and wages in the automobile plants of Ontario. The information we have gathered indicates that with the concessions now agreed upon between the company and the employees, there should be no cause for disagreement and the upsetting of peaceful industrial relations, particularly at this time when we are emerging from such a serious depression."

Abandon Scrip Venture

Alberta Prosperity Certificates Will Be Redeemed

Edmonton.—Scrip venture of Alberta's Social Credit government has been abandoned and it is expected the \$12,000 of outstanding prosperity certificates will be redeemed within the next two weeks.

Provincial Treasurer Solon Low announced that the certificate plan had been abandoned. No scrip had been issued, however, for several months and none had been in circulation since a large percentage was redeemed by the government last autumn.

The prosperity bonds were issued last August in \$1 denominations by the government of Premier Aberhart with the hope of increasing purchasing power of the Alberta people. Certificate holders were to receive a special one-cent stamp each week.

Was Wartime Sergeant

Hythe, Kent, England.—Astley Metherall, 61, wartime sergeant with the Canadian veterinary corps at Shorncliffe, died here April 4. He was awarded the Order of the British Empire for heroism in 1918 when he plunged into icy sea and swam 1½ miles to tow a drifting mine to an isolated part of the coast.

Estate Of Lady Houston

Proven To Be Much Smaller Than The Popular Belief

London.—Lady Houston, eccentric millionaire and imperialist, left an estate valued at £1,528,083 (\$7,640,415), it was shown when contents of her will were made public.

The estate was much smaller than had been popularly guessed. At the time of her death last Dec. 29 it was unofficially estimated she was worth \$25,000,000.

The will was made March 20, 1930, leaving everything to Miss Hoare, aunt of Sir Samuel Hoare, first lord of the admiralty. However, Miss Hoare died March 3, 1936.

Consequently the estate will go to various relatives, including a sister of Lady Houston, Mrs. Florence Wrey.

The government benefited by death duties of \$3,154,604, which have been paid.

Sir Robert Houston, wealthy ship-builder, died in 1926, leaving an estate of \$35,000,000 to his widow. Lady Houston's estate did not include certain assets in Jersey, Channel Islands, of which the value was not given in figures published.

Rust Resistant Wheat

Several Promising Varieties To Be Multiplied This Year

Winnipeg.—Several promising varieties of rust-resistant wheat developed in recent years by western Canadian plant breeders may be selected for preliminary multiplication this summer, it was indicated at the National Research Council meeting here.

Reports were drawn up by chemists of plant breeders and cereal chemists. They stated western Canada is well suited for production of sunflowers, oil from the seeds being as satisfactory as olive oil for eating purposes.

Sunflower seed oil has possibilities as a substitute for higher-priced oil in light-colored paints, the reports stated. The meeting also considered prospects of taking oil from tannin and wild mustard seed.

An impressive flag program was outlined in an effort to develop better varieties to guard against disease while producing a better yield and oil quality.

New Governor Appointed

Robert Irwin, New Governor-General Of Nova Scotia

Ottawa.—Robert Irwin, Shelburne, N.S., has been appointed lieutenant-governor of Nova Scotia. Prime Minister Mackenzie King announced. He succeeds Hon. Walter Covert, appointed in 1931.

There is no fixed term of office for lieutenant-governors, although it is usually five years. Mr. Irwin will assume office May 1.

Mr. Irwin was born in 1865. After receiving his education at the Shelburne Academy, he entered the lumber business, in which he has since been engaged. In 1904, he married Mary Prescott McGill.

He entered the Nova Scotia legislature in 1906 as the member for Shelburne county which he continued to represent until 1925. From 1927 until 1929 he was speaker of the legislative assembly. For the past three years, Mr. Irwin has served as a member of the old age pension board of Nova Scotia.

Recover Bodies

Searching Party Reaches Crashed Plane In Arizona

Phoenix, Ariz.—Captain Horace Moore, of the Arizona highway patrol, reported a searching party had reached the crashed Douglas airplane in the mountain fastnesses 20 miles southeast of McNary and that bodies of the eight passengers were recovered.

Two bodies were thrown clear of the ship. Moore said he was advised. The other six burned.

Moore said his information came from A. P. Andrews, highway patrolman. He said Andrews told him the plane pancaked into the mountain-side and burned.

Hudson Bay Railway

Last Capital Expenditures Appear In Estimates This Year

Ottawa.—Last capital expenditures incidental to construction of the Hudson Bay railway appear in this year's estimates, Transport Minister Howe told the House of Commons.

He said an item of \$71,500 chargeable to capital was for ballasting, ditching, land purchase and other objects. It was the last capital expenditure, as after this year the railway would be considered completed and further expenditures charged to maintenance.

King's Birthday

Will Be Celebrated In Canada On June 4th

Ottawa.—The birthday of George VI. will be celebrated in Canada, as in Britain, on June 9, the governor-general-in-council has decided. Word to that effect was communicated to the lieutenant-governors of the provinces.

While His Majesty was born Dec. 14, the example of his grandfather, Edward VII., is being followed by celebrating the monarch's birthday in the summer season, even where it occurs in winter, so that the public may better enjoy the holiday.

The birthdays of the last two monarchs, George V. and Edward VIII., were celebrated on their natal day, June 3 and June 23, respectively.

Loans In Housing Plan

Total Of \$2,091,158 Already Made To Property Owners

Ottawa.—In its first four months of operations, 5,441 loans aggregating \$2,091,158 have been made to property owners under the home improvement plan, Hon. C. A. Dunning, minister of finance, announced. The plan went into operation the middle of November.

In the two weeks ended March 15, 697 loans totaled \$284,202.

The four months total was divided among western provinces as follows: Manitoba, \$57,271; Saskatchewan, \$44,764; Alberta, \$196,542; and British Columbia, \$216,593.

APOLOGY MADE FOR BOMBING OF BRITISH VESSEL

London.—The British cruiser Shropshire, accompanied by the destroyer Garland, accompanied an apology from the Spanish insurgent authorities at Malaga for the bombing of H.M.S. Gallant.

The insurgents explained the bombing was a regrettable error. Insurgent authorities explained that prior to the bombing of the Gallant they received a report from a seaplane that Spanish government destroyers were in the waters through which the Gallant was passing. On receiving the report the insurgents sent out three land planes with the intention of bombing the Spanish destroyers.

The insurgents said it was conceivable their land planes had "unfortunately" mistaken the Gallant for a Spanish government destroyer. A message also was conveyed from the military governor of Malaga expressing "very great regret if it were found that national aircraft were to blame for the episode."

Meanwhile, Colonel Franco has undertaken to issue instructions to his aircraft that great care shall be taken in future in examining identity marks on any craft in these waters before proceeding to take hostile action against them.

Airplane Passes Tests

San Pedro, Calif.—Douglas Aircraft officials said that a 32-passenger plane, capable of flying 3,300 miles at 180 miles an hour, has passed its tests, but declined comment on reports it will be sold to Soviet Russia.

PARIS EXPOSITION QUEEN

When the Paris exposition opens in May Mlle. Jacqueline Jacobowicz, charming Parisian brunette, will reign as Queen of the Show.

Satisfied With Bread Prices

British People Glad Farmer Getting More For Wheat

London.—Rises in the price of bread and flour contingent upon the spectacular comeback of wheat in world markets is accepted philosophically in Britain.

The general opinion is that the price the farmer is getting for wheat is no higher relatively than the increase in his costs. It is also felt the advance will raise the purchasing power of farmers the world over, thus lending general stimulation to recovery.

"It is worthy of note," says the Morning Post, "that at no time during the slump has the price of bread fallen much below 14 cents per four-pound loaf, compared with 11 cents in July, 1914, whereas the price of wheat during the whole of the five years 1931-35 was substantially below the pre-war level."

"Thus it is the manufacturer and distributor, not the farmer, who has been reaping the benefit of higher prices paid by the consumer."

Constitutional Debate

London Daily Herald Comments On Privy Council Judgments

London.—The diplomatic correspondent of the Daily Herald, commenting on constitutional debate in the Canadian House of Commons, says:

"What disturbs Canadian opinion is not merely the bar against Dominion legislation on social matters, it is that in a number of recent judgments the privy council has tended to change the whole character of the constitution by interpretations which increase the powers of the provinces and restrict those of the Dominion."

The House of Commons at Ottawa debated the recent judgments whereby the privy council found ultra vires a number of the reform measures passed during the last Bennett administration.

Election For British Columbia

Date To Be Announced Shortly States Premier Pattullo

Victoria.—The Liberal government of Premier F. D. Pattullo will go to the British Columbia electorate this spring, the premier announced.

Stating the date would be fixed before April 22, Mr. Pattullo confirmed long-felt assurance that an early poll was in prospect. A June date is generally considered probable, with late May a possibility.

"The actual date of the polling has not been set," said the premier. "But I know the public is anticipating an announcement shortly, so I can tell you the date will be fixed before April 22."

British Columbia will enter a general election campaign with the prospect of having even a greater number of candidates than the 210 who contested for 47 seats at the last general election in November, 1933.

Parties which have announced they will contest all or a majority of constituencies are the Liberal government party, Conservatives, Social Constructive opposition, Co-operative Commonwealth Federation and the Social Credit League. In addition there are in prospect various Independents, Socialists, Communists and others.

Would Boycott Doukhobors

Farmers In B.C. Protest Against Recent Damage To Schools

Nelson, B.C.—A resolution calling for the boycotting of Doukhobors throughout Kootenay valley was approved at a meeting of 175 farmers at Winlaw, 15 miles northwest of here. The meeting was held to protest the wave of burnings and a bombing which destroyed or damaged 10 schools or halls in this district recently.

More extensive steps against Doukhobors were approved in a number of other resolutions passed at the meeting. The resolutions will be forwarded to Premier T. D. Pattullo.

The other demands ask enforcement of a curfew law against the Doukhobors, their exclusion from public works and relief, expropriation of their property by the government, their isolation on government reserves, and seizure of their chattels to pay for the damage caused in the recent outrages.

Effective protection against further damage also was demanded.

NO ADDITIONAL AID TO BE GIVEN WAR VETERANS

Ottawa.—Canada's annual expenditure on behalf of war veterans amounting to about \$60,000,000, and which has cost more than \$1,000,000,000 since the war, will not be increased by payment of relief to non-pensionable unemployed ex-soldiers.

Hon. C. G. Power, minister of pensions and national health, himself a veteran and a one-time pensioner, answered with categorical "no" recommendation for supplementary payments to unemployed veterans made in a report of the war veterans' assistance commission, when his estimates were before the house.

At the same time he announced the government's intention of establishing across Canada "Workshops Limited," voluntary committee work that had been very successful in Ontario, to assist the young war veterans in getting re-established in gainful employment.

These organizations would be administered by prominent citizens and would be designed to enlist the sympathy and co-operation of people generally in getting war veterans back into occupations that would enable them to provide for themselves.

After an all-day discussion the last of Mr. Power's pension estimates were approved. At the end Conservative leader R. B. Bennett made a plea for the unemployed war veteran and Mr. Power said a permanent policy would be considered.

During the summer he would ask ex-service men's associations to make suggestions. Meanwhile he would have sufficient money and authority to care for exceptional cases.

In brief the recommendation of the veterans' assistance commission was that unemployed ex-soldiers, who served in the actual theatre of war and who are not otherwise being cared for by the department of pensions, would be paid additional sums of \$5 a month for single men and \$10 for married men, to bring the municipal relief they were receiving up to the relief standard set by the department, that is at the rate of a 30 per cent. pension.

NOT INTERFERING IN CIVIL WAR IS CLAIM OF FRANCE

Paris.—Premier Blum reminded Italy that France asks "instantly" the withdrawal of foreign volunteers in Spain and maintained that his government's attitude of neutrality "gives the lie" to Italian charges of French intervention in the civil war.

As the breach between the nations apparently extended to sports with cancellation of an Italy-French football game here, the premier's office issued the statement "it is only too easy to guess what the reasons are for these accusations and what their goal is. Their untrue character readily appears."

French officials earlier had held Italian press charges French army officers were aiding Spanish government troops were a "counter-manoeuvre to offset the presence of Italians in Spain."

The foreign office announced it had no part in cancellation of the Italy-French football game to have been held here, but an apparent Italian fear of anti-Fascist demonstrations was advanced as a reason.

Members of the French Football Federation said Signor Rorasi, secretary-general of the Italian federation, "told members of the French federation that information reached Rome that certain political elements were planning to demonstrate when the Italian team came to Paris."

Rome.—The authoritative Giornale d'Italia, opened a new attack on Soviet Russia and France, charging Russia is shipping war materials to Spain and sending submarines and cruisers to Spanish waters.

The newspaper's editor, Virginio Gayda, who repeatedly has charged violation of the "hands off Spain" agreement by both Soviet Russia and France, declared the Soviet general army staff had been organized at Toulouse, France, to superintend arms shipments to Spain.

Premier Mussolini meanwhile was due to get first-hand information on the Spanish situation from Rorasi, Cantalupo, Rome's ambassador to the Spanish insurgent regime, who arrived in Rome from Spain.

Radio Licenses

Over A Million License Fees Collected Last Year

Ottawa.—Some persons prosecuted for non-payment of radio license fees pay quietly and others go to their members of parliament, Transport Minister C. D. Howe told the House of Commons.

He was answering a question by Gordon Graydon (Cons., Peel), who thought more notice should be given radio-owners before prosecuting.

Mr. Howe said all radio owners received two written notices and a personal call before they were prosecuted. Besides there were notices broadcast over the air when license fees were due.

"We collected over 1,000,000 license fees last year," he said. "The net revenue after collection cost was \$1,900,000. We prosecuted about 2,000 cases and of these about 1,500 paid quietly while the other 500 went to their member of parliament."

Royal Commissions

Sum Of \$150,000 Has Been Set Aside For Expenses

Ottawa.—The cost of royal commissions comes high and in supplementary estimates the sum of \$150,000 is set aside for expenses of the inquiry into financial powers and responsibilities of the Dominion and Provinces.

Appropriation for the grain inquiry now being conducted by Mr. Justice W. F. A. Turgeon amounts to \$111,700, while additional money needed for the textile probe, also presided over by Mr. Justice Turgeon, amounts to \$27,000.

Atlantic Air Service

United States Has Completed Arrangements With Britain

Washington.—The United States completed arrangements with three English-speaking nations for commercial air service across the Atlantic ocean.

J. Monroe Johnson, assistant secretary of the commerce department, said agreement had been reached with Canada, Ireland and Great Britain under which giant flying boats will speed passengers and mail between New York and London, with stop-over in Canada and Ireland.

Mussolini has an official salary of less than \$100,000 a year.

BROTHERS IN BLOOD AND ARMS!

Francisco Franco Nicholas Franco Here is one of the first pictures ever released of General Francisco Franco, seated, chief of the Spanish Fascist forces, and his brother, Nicholas Franco, who serves as general secretary for the Fascists at their headquarters at Salamanca.

The Editor will be pleased to receive items for this section, regarding views entertained, parties leading for holidays or short trips, bridges, parties, teas, etc. Please items in to 11 or hand them in at The Enterprise office no later than Wednesday evenings.

Mr. R. W. Harold Pinkney has been confined to his home with foot trouble.

Wednesday, April 14th, was the twenty-fifth anniversary of the Titanic disaster.

Makie Baer is feeling so fit nowadays that he claims he could take on Joe Louis and Jimmy Braddock and lick 'em both in one night.

Mrs. P. Chardon and Miss Madeline were among the folks from this district to accompany the Moser orchestra to Lethbridge this week.

Several ladies from Blairmore anticipate seeing the Coronation, including Mrs. James Stewart and Mrs. Chabateaux.

Laura is a lucky kid. Luck kinds came her way during the week, so she just had to establish a clearing house.

Remember, oh ye gardener, When'er you buy your seeds, Remember that the catalogue Forgets to show the weeds.—Ex.

There used to be an old saying: "The further out (or the further west) the better the men. North Battleford must have been very far west.

Mr. Marshall Hamilton, fireboss at the Greenhill mine, entered the local hospital this week to have a finger amputated. We learn that he is doing nicely.

Ten and Sale, under auspices of St. Luke's Guild, to be held at the home of Mrs. Freeman (above F. M. Thompson's Greenhill store) on Saturday, May 1st, from 3 to 6 p.m. Everybody welcome. [a16-a30]

Herman Trelle, perennial wheat king of Wembley, Alberta, has been presented with a de luxe Ford V-8 car from Henry Ford, president of the Ford Motor Company, in recognition of his work in producing championship grains. Besides the car, the gift includes free servicing in any part of the world.

Once, a long time ago, I ventured to wager that no one could listen attentively to the proceedings of any Canadian provincial legislature for two days and then truthfully declare that, in his opinion, it would be possible to invent a worse system of conducting the affairs of provincial state. The bet still stands.—Harris Turner in the "Western Producer."

The past year and a half of political history in Alberta should teach this lesson: that it is foolish to trust to panaceas preached by impractical people in the hope for better times. It is really pitiable to witness the disillusion of many thousands of Alberta people who had placed implicit confidence in the promises of a visionary leader.—Hanna Herald.

About a year ago we met a Scotman on the Canadian National Railway platform at Edmonton. After chatting a while, he suddenly recalled that he had a letter to post for Calgary. Realizing that the C.N. route to Calgary was somewhat longer and that as well the postage rate might be higher, he walked nine blocks to the C.P.R. depot to post his letter. That's thrifty, boys!

The residence of T. Hills on Edmondson Street changed hands during the week, Lord brothers being the new landlords. Mr. Hills and son George left the early part of the week by car for the Elnora district, east of Red Deer, where they have taken a farm. Household effects were shipped via C.P.R. Mrs. Hills will join them towards the end of the month, after visiting with friends at Coleman, Bellevue and Blairmore.—Mr. and Mrs. Hills had resided in Blairmore for the past thirty-one years.

CORONATION DAY

All persons desiring to contribute to the expense of the proposed Coronation Day Celebration in Blairmore will please hand in their contributions to the Treasurer, Mr. C. J. Tompkins, as soon as possible.

ROBERT OAKES,
General Chairman.

Mrs. J. B. Harmer has been visiting with her daughter, Miss Lucy, at Lethbridge.

The town council of Macleod will purchase 500 souvenir medals for presentation to the school children on Coronation Day.

A number of local hockey fans spent the week end in Calgary, taking in one or more of the Allan cup games.

Robert Irwin, of Shethurke, N.S., has been appointed lieutenant-governor of Nova Scotia, succeeding Hon. Walter Covert.

Nora Gladstone, known to the Lord Indians as O Muk a Pinni, clever school student and Girl Guide, and full-blooded Indian girl, will go to the Coronation.

What a glorious looking bunch of suckers the newspapers of Alberta would have appeared had they all lined up with Aberhart and his quack policies.

Alexander McLean, ninety-year-old resident of the Dickson district, Alberta, left recently for the old country to attend the Coronation. He is making the journey alone.

For passing still-born legislation, the Alberta government takes the bun. Why the waste of paper and the stenographer's time?—Drumheller Review.

A girl writing from Nova Scotia once said: "Down here fish are fish and apples have beautiful rosy cheeks, but doctors are just as plentiful as if an apple tree had never blossomed.

A new five-ton cable and castings have been moved in to the Weymarn well, and other equipment is moving in steadily. The company are preparing to resume drilling operations right away.

Luke Lindoe, for some years mine surveyor and civil engineer with the International Coal & Coke Company, Coleman, will terminate his office at the end of the present month. With Mrs. Lindoe, he will take a vacation for some time before deciding on future plans.

The marriage was solemnized at Drumheller on April 7th, of Marjorie Isabelle Johns, popular native daughter of Drumheller, to Duncan Cameron Hamilton, second son of Councillor and Mrs. Allan Hamilton. A reception was held at the home of the groom's parents.

Without provocation, one delivery truck kinda slammed another in town on Tuesday. The lighter of the two took the knockout without even a murmur. The truck that turned over belonged to John Kubik, of the Blairmore Grocery, and was driven by E. Began, the other truck being driven by F. Edl, driver for the Union Meat Market, neither of the drivers were injured.

Joseph Firazek, aged 56, a farmer of the Chapel Rock district, passed away at Coleman on Thursday evening last at the home of his stepson, Steve Hatalak. He was a native of Czechoslovakia. The remains were laid to rest in the Catholic cemetery on Sunday, following service at Holy Ghost church, conducted by Rev. Father Dunbar. Funeral arrangements were in charge of the Crows' Nest Funeral Home.
